(U) SPECIAL SECURITY OFFICE (001). The SSO advises and assists the Commanding Officer of FICPAC in his responsibilities pertaining to the administration and control of sensitive compartmented information (SCI) materials and billets. The SSO also supports the Intelligence Production Department through the distribution and control of SCI materials and imagery and provides limited assistance to COMSUBPAC and major afloat commands.

The FICPAC SSO currently controls over 3000 SCI documents, 177 active SCI billets, 20 ACDUTRA billets (filled by 180 reservists over a twelve-month period), three years of stored and cataloged overhead imagery (1981-1982), and numerous special files. The SSO also has responsibility for the security of FICPAC's two separate SCIF's (rooms 101 and 101A on the first deck, and rooms 306 and 312 on the third deck).

During 1982, the SSO handled approximately 1,000 outgoing messages; shipped over 8,000 pounds of ARFCOS material; and received, routed, and controlled in excess of 80,000 messages and 15,000 pounds of ARFCOS material. This included over 135,000 frames of imagery in various formats.
